

Seeing 2019 Out

Knettishall, on the last day of 2019. The day surprised us all with bright sunshine, strong shadows, and not so surprising, a bitter breeze.

Once again Mark Allen and Peter Jenkins were out with their cameras and captured some

excellent pictures. Sadly Peter was flying and photographing so much we failed to capture both him and any flying shots of his F3A Agenda.

Nevertheless, despite not lasting much beyond 2pm, it was an excellent day of F3A schedule practice for Peter and Mike; larking about for Mark, Ron and Ian; and even the extensive oily rag fiddling Ron loves so much.

Footnote - the twin sounds fantastic when on song. It never got in the air due to one 'challenging' engine, but it looks and sounds brilliant.
