

Radio Control Aerobatics - New Pilots Open Day Sunday 18th July 2021

Following on from the very popular BMFA "In the Air Tonight" - An introduction to Aerobatics, the NORWICH MODEL AERO CLUB are to host an event on Sunday 18th July from 9am at former RAF Coltishall (subject to Covid regulations).

Registrations will be limited to first come, first served in order to ensure participants get the most from the day.

Places are very limited so please book early. During the day, you will be assigned to an experienced Mentor who will be able to assist with correct model set up and all important model trimming. Some of the mentors have represented the UK at World Championship events. Any model that is capable of a loop and a roll will be suitable but must comply with an 82db maximum noise limit. You will be able to hone your skills throughout the day and for those interested will be able to enter a low key Competition at the end of the day.

These events are a great opportunity to take your present flying abilities and develop these onto new levels. Please follow the link below to apply for a place and select CLUBMAN as your entry. There is a £6 entry fee.
